Overall Progress Narrative:

In summer 2024, South Dakota experienced a catastrophic flooding event triggered by an extreme rainfall. Rivers across the state, including the Big Sioux, surged beyond their banks, inundating homes, businesses, and critical infrastructure. As a result of this disaster event, the US Dept. of Housing and Urban Development (HUD) announced that South Dakota will receive \$15,375,000 in funding to support long-term recovery efforts following the 2024 severe storms, straight-line winds, and flooding (DR-4807) through the South Dakota Governor's Office of Economic Development (GOED). Community Development Block Grant-Disaster Recovery (CDBG-DR) funding is designed to address needs that remain after all other assistance has been exhausted. GOED is allocating 5% of its allocation or \$768,750 for the general management, oversight, and coordination of the CDBG-DR grant, public information, and submission for grant programs as outlined in 2 CFR 570.206(a)(b)(f). GOED does not request any reimbursement of past program administration costs for staff or subrecipients. The amount spent on each administration activity could vary with funds being used for eligible activities listed above and eligible by 24 CFR 570.206 interchangeably with the total amount of administration dollars spent not to exceed 5% of the total allocation of CDBG-DR funds. GOED will use planning dollars to compile the unmet needs and mitigation needs sections of the Action Plan. The CDBG-DR Admin Action Plan had narrative added and an Admin Activity was created. No projects or activities have been completed and no funds have been drawn to date.
